Dear Murray:

Jim brought a few July 1 PI Arts and Book World on Sunday, the first I had seen, though a woman had called from Dungeness on Saturday 7 th and said she had seen a review "a week or two ago." We sort of live apart and no one takes the PI here. You must think I am an ingrate not to have written right away.

Wherever in the morgue did they find the 1930's photo? It was grim and appropriate. And I'm really awfully pleased with the review. Not this book but "Murray Morgan" would have rated the lead review in World of Books.

I had the flier from American West (I take the magazine) about THE GREAT NORTHWEST and am of course ordering a copy. I hadn't known you were involved in this project. It sounds very worthwhile, and will, I know, bear your stamp of perfection.

Again, much thanks. I am sending copies of the magazine section to Dr. Price's widow and to Iowa State managing ed.

Love to Rosa and Lane, too,

*Hazel*

PS Do you know the magazine WESTWAYS? Published monthly by Automobile Club of Southern California. We had a great bundle of them today, and have had before, from Nancy Schutte's sister Betty Sherrard of Laguna Beach. They're sometimes pretty good, especially their "Southwest Classics Re-read. Nancy is still in British Columbia Cancer Institute in Vancouver, undergoing all kinds of torture.
