

Sunday Night 20 th 1979

✓ ~~Mary Hazel~~
Dear Rosa and Murray:

I will ride along with the Historical Society letter, inasmuch as I am furnishing the stamp.

Rick stopped in a bit ago enroute to Portland. He's going to spend tomorrow going through BLM microfilm/s of early settlers claims. He said he had a call today from Cecelia Carpenter. She discovered he was an Islander. She had come across the Judge Evans piece that McClure, the author of the COINS article, had found way back there and was all excited. But she didn't know what Island had been named for Wallace. Said she looked all over the map and couldn't find a Wallace Island. When Rick told her it was us she really got turned on.

I think we're almost there. We're going to be pretty taken aback if Rick finds a different 1840s patentee on Anderson Island.

We're very grateful to you for giving ^{us} this new lead. I was down there yesterday and know about where "house" stood because of the section line road.

Enclosed is
address you
wanted.

Love to Lane, too,

Hazel
