

Oct. 21

Dear Murray & Rosa:

A niece from Kansas sent a packet of these. I couldn't resist sending you one...

I'm busy with the opusculum (New word to me, defined a "minor work"), bored, but busy...Lots of color. The yard is temporarily carpeted with gold, courtesy of cottonwood and poplars. Grosbeaks have come, and gone. Waxwings visit holly & hawthorn daily.

We have a solitary loon out front and a cormorant or two now and then. One islander reports a shark, not "mud" but bona fide.

Affectionately,

Angela
