Dear Rosa:

1989

I love your silk-screened
loon & found an envelope
to fit him. If I can bear
to give him up. Thanks.

Thanks very much for your letter and the tide clock check, which I have turned over to Roger, who has brought the clocks to me. I am embarrassed about the returned stipend (this machine doesn't space worth a darn) and all your lagniappe. I hadn't really thought of your "need," I just wanted to do a little something.

Jim and Liane are at Higgins. This is Liane's Spring Break and they came to put in garden. You can't even step in the garden without sinking out of sight and sound. Hollie, Murray and O.P. will be out on Sat. and they all, with the exception of Haxel, will celebrate the natal day.

I liked the thought of O.P. and Lane's girls kayaking together. I, too, would like to see. ... I am interested to hear that Lael, Liane says, has arranged to study graphic art with some artist who comes to Kirkland, I think. I want to see her get back into art, for she has always shown talent, rather unusual creativity I think. I will ask her to take my old Underwood with her to the address Murray gave me when we met at the museum... I will look forward to seeing you at Ostransky's, if Natalia will have us again. And so will Roger, he says. He enjoyed Leroy & is enamored of Roy's piano... This is some of Roger's marbled water color paper. He gave me a hand-made in-and-out box filled with this for Christmas... I have a new gift of art from Helen Hiatt, who illustrated both "Island..." & "Boots & Forceps." It's monoprint transparent." I like it.

See you when I get the summons. 884-2112.

Love and gratitude,

Haxel

I Love You

Dear Rose

Thank you very much for your letter and the little
black book which I have found very interesting. I
am very glad to hear that you are well and all
the same. I hope you will enjoy the little
book. I have written it for you and I hope
you will like it.
