

8/2 <sup>91</sup> Dear M. & R.:...Loved M's interurban story. At times, I rode one from County Hi school to Cherryvale, caught the Santa Fe to Liberty, and then walked 2 mi. to reach home. Lacking fare, I walked the 9 mi. home. The interurban, fast & swaying, was a real and rare treat. As was a week-end home. My Mom drove me back, with old Dan between the buggy shafts (some called them "shaves.")... I look forward to your pieces, thank you, and pass bits on as Island Hist. Soc. "historian," a dubious honor... Lane sent me a copy of Sumas A., which I passed around. Jim and Liane have both retired and are building at Higgins Cove. Hollie's two offspring are both beautiful and bright. Lael's Chinese young man is fishing in Aleutian Islands waters, and writes me of sea and land up yonder, He, too, was a rep. on Joint Venture, Japanese, on the smoky seas... I am still banging away faithfully at Blackjack Country. Like some of it and keep changing. "Dawdling," you call it. Properly. Love and Love,

Hazel
